

HA-PL5 CHARGER STATION-18

STORAGE AND CHARGING CASE FOR 18 HA-PL5 PORTABLE LIGHTS

The HA-PL5 charger station-18 is a strong protective case that is used for transportation and recharging of 18 HA-PL5 portable lights. By simply dropping the lights into the charging station, the portable lights will be charged. Charging is fast and within 8 hours. There is no need to connect the lights to cables or sockets. The intelligent charger keeps batteries of portable lights in the best condition. It is not necessary to disconnect the chargers from the grid when the batteries are fully charged. Indicator LEDs on the battery chargers give information about the status of the condition of the batteries of the portable lights.
