

## HA-PL5 CHARGER STATION-5

### TRANSPORTATION AND CHARGING CASE FOR 5 HA-PL5 PORTABLE LIGHTS

The HA-PL5 charger station-5 is a strong protective case that is used for recharging of 5 HA-PL5 portable lights. By simply dropping the lights into the charging station, the portable lights will be charged. Charging is fast and within 8 hours. There is no need to connect the lights to cables or sockets. The intelligent charger keeps batteries of portable lights in the best condition. Indicator LEDs on the battery chargers give information about the status of the condition of the batteries of the HA-PL5 portable lights.

Please note that the HA-PL5 Charger Station-5 is only for charging the PL-5 lights. It cannot be used for storage or transportation of the 5 HA-PL5 lights, because the lid of the case cannot be closed while the lights are in the case. If you are looking for a charger station that can also be used for storage and transportation, please consider our HA-PL5 Charger station 8 or 18.
