

DATASHEET:

HA-HLO SAFETY VEST

HIGH VISIBILITY ON THE HELIPORT

Helicopters landing on heliports and offshore helidecks have to have on-site assistance to ensure a safe landing. That person is called a Helicopter Landing Officer (HLO). As a special requirement, the HLO must wear a vest with the letters HLO printed on the back and front. The printed letters ensure that the pilot and other personnel operating the helideck can easily locate the HLO. The reflective stripes ensure high visibility on the heliport.

Always wear the vest fastened. The vest has been designed to prevent entanglement. Please take care wearing this garment near moving machinery.

SIZE	One size fits all
COLOUR	Fluorescent Yellow
FLAME RESISTANCE	NOT Flame or Fire resistant
AFTERCARE	Machine wash warm, Cold rinse, short spin. Do not wring. Max 25 wash cycles 
COMPLIANCES	CE directive: 89/686/EEC regarding Personal Protective Equipment EN ISO 20471: 2013/EN 340:2003 High Visibility Clothing: Class 2 Intermediate
STORAGE	Always store in clean, dry conditions. Do not store in places subject to direct sunlight
HS CODE (CUSTOM TARIFF)	62113310
