

DATASHEET:

## HA-WRS

### HOOP TYPE WINDSOCK RING

Simple and affordable alternative for our sturdy high quality windsock swivel frame. Just click-on the snap hook on any construction hook and the windsock will react to the wind. Does not turn as controlled and freely as our high quality windsock swivel. Not ICAO or FAA compliant. This is for simple applications only.

**MATERIAL** Ring: Stainless steel 316L  
Rope: Polypropelene Superlene  
Snap hook: Stainless steel 316L

**SIZE** Ø30, 40, 50 or 60 cm

**WEIGHT** 0,2-0,3 kg (depending on size)

**AMBIENT TEMPERATURE** -40 °C to +55 °C

**OPTIONAL** Stainless steel wire harness instead of rope

**HS CODE (CUSTOMS TARIFF)** 9015802000
